

# MUD-TRAKS®

## Mat Series

### Portable Roadway Systems

- ✦ Super strength, light weight fiberglass panels
- ✦ Strongest "man-handleable" mat in the industry
- ✦ Rigid panel reduces 75 psi tire load to 11 psi
- ✦ Axle loads of 30,000 lbs., off road conditions
- ✦ Bend, but don't roll up, don't break
- ✦ Most aggressive traction surface in the industry
- ✦ Non-electrical conductive, great for power line work
- ✦ When you have to get in - MUD-TRAKS

For Rubber Tire/Track  
Vehicles Only!  
No Steel Tracks.

- ✦ Easily handled by men in the field.
- ✦ Fit in the back of a pick up truck.
- ✦ Textured on both sides for traction.
- ✦ Not affected by water, gas, oil or chemicals. Made to do a tough job for years of service.
- ✦ Rope Handles for easy lifting.
- ✦ Ground PSI much lower than plastic, plywood or planks.
- ✦ Steel Connectors available; overlap joint for strongest connection.
- ✦ Off-white color keeps them cool in summer heat, no damage to lawns.

# When You've Got to Get Through.

**MUD-TRAKS®** are made from space-age materials that allow the panels to bend and twist. This flexibility prevents breakage under extreme loads. Full size panels spread the load over 30 sq. ft. of solid footprint. Pound for Pound **MUD-TRAKS®** are stronger than wood, steel or plastic. **MUD-TRAKS®** provide maximum flotation. If the ground supports a man walking, **MUD-TRAKS®** will take your equipment to the site.

Textured on both sides for traction. **MUD-TRAKS®** can be easily handled by men in the field and transported in a pick-up truck. Manufactured with rope handle standard, hand cutout optional on some models so you can grab and go. **MUD-TRAKS®** provide maximum load spread for the least PSI of any mat on the market. They are not affected by water, gas, oil or chemicals. No splintering and rotting like plywood. Steel connectors using the mat overlap configuration for the strongest possible link.

**MUD-TRAKS®** are super strength, light weight engineered composite fiberglass panels. The Super Mat (HDS) Series can support axle loads of 30,000 lbs. in off-road conditions. The Lawn Mat (HD) and Super Light (HDSL) mats are designed for use when the load factors are not as demanding as the Super Mat requirements.

**MUD-TRAKS®** Whether you're driving over lawns or through a rain soaked field, there is a Model to fit your need.

#### LAWN MATS -- Vehicle Weight (under 35,000 lbs).

Model N2296HD (22" x 96" x 5/16") 28 lbs

Model N3296HD (32" x 96" x 5/16") 40 lbs

Model N4572HD (45" x 72" x 5/16") 60 lbs

Typical user: cemeteries, electric distribution, tree trimmers, film.

#### OFF-ROAD SUPER LITE MATS -- Vehicle Weight (under 60,000 lbs).

Model N2296HDSL (22" x 96" x 3/8") 38 lbs

Model N3296HDSL (32" x 96" x 3/8") 55 lbs

Model N4572HDSL (45" x 72" x 3/8") 56 lbs

Model N4596HDSL (45" x 96" x 3/8") 75 lbs

Model N60120HDSL (5' x 10' x 3/8") 125 lbs

Typical user: utilities for off-road, rental companies, light cranes, special events

#### OFF-ROAD SUPER MATS -- Vehicle Weight (up to 120,000 lbs).

Model N2296HDS (22" x 96" x 0.40") 46 lbs

Model N3296HDS (32" x 96" x 0.40") 64 lbs

Model N4572HDS (45" x 72" x 0.40") 70 lbs

Model N4596HDS (45" x 96" x 0.40") 92 lbs

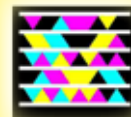

Model N60120HDS (5' x 10' x 0.40") 150 lbs

Typical user: transmission line crews, well drillers, cranes, house movers.

#### Special Sizes—Super Mats

Model N7272HDS (80" x 80") effective face (6' x 6')

Model N72144HDS effective face (6' x 12')
