

# DOZER MATS™

**“When you’ve got to get through”**

## Portable Roadway Systems

Stop road damage caused by bulldozers or other types of track vehicles with sturdy, environmentally conscious Dozer Mats.

Dozer Mats prevent damages caused by steel treads crossing roadways, concrete shop floors and driveways. Unlike tires, Dozer Mats do not hold water that soaks you when they are handled. Dozer Mats are designed with a rugged textured surface which will not allow track vehicles to slip or slide on wet or icy surfaces. Dozer Mats can also be used to line the bed of an equipment trailer to prevent slippage on the wood or steel surfaces. Dozer mats are lightweight and portable. Lay them flat or roll them up for easy storage. Dozer Mats weigh only 48 lbs. and are 18” wide x 8’ long, with hand cut outs on both ends for easy handling.

- Rugged, use under any sized track vehicle.
- No mess from splashing water.
- Easy to handle.
- Bedliner for equipment trailer.
